Assurance Reimbursement Management™

Appeals report (1408)

Use the Appeals report (1408) to create a list of claims with related appeal information. For each targeted claim, this report provides all associated appeals with any set follow-up timeframe expiration dates as well as payment information. The report is sorted by patient name, control number, and appeal date. It can be automated (Reports – Released, Appeals Report process) or created manually (Reports > Create Reports > Released (type) > Appeals Report [1408]).

- The first row in the report is a heading row that names the columns.
- The data of the report is a row for each targeted claim with an appeal.
- The report is a delimited file that follows the standard product rules for determining its delimiter. The default is the delimiter set in Report Options. To change the delimiter for this report only, create an auto module and change the set delimiter within the module.
- The native extension for this report is .csv. If your system requires another extension, it must be changed after the file is downloaded to your system.

#	Field Name	Type	Max Length	Comments
1	Patient Name	A/N	73	Last, First MI
2	Control Number	A/N	20	
3	Payer	A/N	60	
4	Statement From Date	Date	10	
5	Claim Charges	Money	15	Total chgs (TOT_AMT)
6	Appeal Payment(s)	Money	15	Sum of any electronic payments posted to the claim within the appeal life cycle.
7	Appeal Date	Date	10	This is the date when a user created the appeal.
8	Appeal Form Name	A/N	50	Indicated the form type such as Redetermination, Reconsideration, or Request for Hearing
9	Appeal Status	A/N	255	• Indicates the current status of the listed appeal: Created, Filed, Succeeded, or Denied. • If there is no associated appeal for the claim, then this item includes the note “No Appeal Found”
10	Follow Up Date	Date	10	When present, this value indicates when the follow-up timeframe expires as set within Claims Tracker.
