1936 Aii Status
1937 Aii Claim Status Report with Provider NPI

Both of the *Aii Status* reports provide payment information from Medicare for each claim on the report. They provide the same data, except for the Provider ID:

- In the ***1936 version*** of the report, PROVIDER NO displays a legacy Provider ID.
- In the ***1937 version*** of the report, that column is titled PROVDER NPI and displays **Provider NPI**.

Both reports are available in PDF and delimited formats, and use Claim Filter.

In addition to patient information to help identify the claim, the report contains remit information that was retrieved from Medicare. You can review the details of this information on the Payer Activity tab when the claim is open in CFI:

XMIT DATE – The date the claim was sent to Medicare
PAY DATE – The payment date given by Medicare
PAID AMOUNT – The amount paid by Medicare. (Empty if the claim was not paid.)
STAT – Current status of the claim (Inquired, Denied, Pended, Exception, Paid, Secondary Billed, and Secondary Bill.)
Inquired – DE: Check Status returned data for this claim; claim has not finished adjudication.
Pended, Denied, and Paid – Status information retrieved from Medicare.
Exception – An exception occurred in processing on the Medicare system.
Secondary Billed – A secondary claim has been created from this claim.
Secondary Bill – This claim is a secondary claim.
REASON CODE – The reason code returned by Medicare
