1302– Field Error Detail Report

The Field Error Detail report is organized by field. For each field containing an error, the report provides the field name, the reason for the error, and a list of all claims in the working group in which the error occurs. The Field Error Detail report also provides statistical information about errors found in the working group of claims.

July 11, CCYY 12:54:40AM — **FIELD ERROR DETAIL REPORT** — PAGE NO. 1 / CLIENT 9999 / USERID bhyde
