1820 Medical Necessity Edit Errors – Summary report.

Provides summary information for each Medical Necessity error in the working group of claims. The errors are grouped by error type and each type is totaled before the next type begins.

- *Open Errors* – Claim cannot be sent until these errors are corrected.
- *Manual Override Errors* – A user has overridden these errors. If the claim is otherwise clean, it will be sent to the payer with this error on it.
- *Warned Errors* – These errors are downgraded to warnings by claim processing. Your site has indicated that claim validation should ignore these errors. If the claim is otherwise clean, it will be sent to the payer with this error on it.
