1005 – Itemized Explanation of Benefits

The Itemized Explanation of Benefits report provides the maximum amount of information about adjudication and payment activity on the selected claims. At the end of each remit is a key to the Adjustment and Remark codes that are returned in the remit. This report uses the Remit Filter and will generate pages for matched or unmatched remits. The report breaks between each patient for easy separation by patient.
If remit payment is from *DE: Check Status*, the facility and payer addresses will be empty.

EXPLANATION OF BENEFITS ITEMIZED
