1846 DE:Front-End Errored Claims Report

Shows each Direct Entry error in the group of claims followed by a list of all claims that contain the error. To use as a trending tool, run this report after the eligibility and front-end error checks.

This report is also available in delimited format for import into an external program. (Click CSV in Create Reports)

Total Count of Claims: 4
Total Amount on report: $234,456.00
Errors on Report: 15

This report only includes eligibility and front-end edit errors.
Because claims can contain multiple errors, this is not a balancing report.
Percentage totals are +/- .05%
