Assurance Reimbursement Management™

Automated attachment status (1551) file map

The Automated Attachment Status report provides visibility into the status of matched and unmatched reports on released and unreleased claims.

1. The Automated Attachment Status report type is **custom**.
   - Only includes information on attachments processed by the automated attachment process.
2. The native file extension is **.CSV**.
3. All date formats are **MM/DD/CCYY**.
4. The Automated Attachment Status report filter consists of the following:
   - Date file received
     - Date (from): user selected.
     - Thru date: user selected.
   - Date range: not to exceed 90 days
   - Filter may be saved
5. The report can be created manually or in an auto module.
   - The name of the auto module process is **Automated Attachment Status**.
   - The auto module requires the Automated Attachment Status report filter.
   - The report will use the default delimiters defined in Reports > Report Setup > Report Options.

Sample file output:

Col	Notes
MATCH STATUS	The match status of the attachment: Matched or Unmatched
UNMATCH REASON	For unmatched claims, the reason the attachment file was not matched to a claim (e.g., Claim not found, Multiple claims found)
ATTACH FILE NAME	The name of the attachment file received by Assurance. The prefix of CID_ATT_ is added by Auto Agent.
FILE RECV DATE TIME	Date and time attachment file was received in Assurance
PATIENT CONTROL NO	For matched files, the control number of the claim matched to the file.
PATIENT LAST NAME	The last name of the patient
PATIENT FIRST NAME	The first name of the patient
